

Washington Avenue Opens for Travel

Frankfort, IN - On Monday, December 20th, Washington Avenue opened for the first time since June 2021. The City of Frankfort, Milestone, and INDOT gave the green light for travel. American Structurepoint revitalized Washington Avenue through their innovative designs and architecture. Milestone and Utility crews arrived on site early in June and with the help of the weather and the community, Washington Avenue was able to open back up in 6 months.

Street Superintendent, Jason Forsythe stated, "I am happy that we were able to open Washington Avenue before Christmas. Travel can resume on the roadway today and most of the barricades will be removed in the coming days. Residents may see "road construction ahead" signs for a few months as it is protocol for all INDOT projects."

Please be cautious when traveling along Washington Avenue. Please abide by the set speed limit signs and other signage along Washington Avenue.

The City of Frankfort will be planning a ribbon cutting at the beginning of 2022. For any additional questions about the Phase 2 - Washington Avenue Project, please call the Frankfort Street Department - 765.659.2912
